Easy process for participants

PlayHQ has enabled more time on growing the game rather than spending half my days trolling through spreadsheets.

I think I've heard every excuse under the sun for avoiding paying registration. PlayHQ is putting an end to those excuses.

## Setting up online payments is easy

Online payments are integrated with PlayHQ, so you can set it up from within the PlayHQ Admin Portal. Head to **My Organisation / Overview** and hit the **Payments** tab to start the set-up process.
